COLOUR GUIDE

- 1**  **Light blue** The top and bottom bands
- 2**  **White** The middle band, all around the sun
- 3**  **Gold** The sun — the middle circle and every one of its rays

DID YOU KNOW?

The sun is the **Sun of May**, named after the May Revolution of 1810 that started Argentina's journey to independence. On the real flag it has a human face.

Count the rays and you'll find **32** — sixteen straight ones and sixteen wavy ones, taking it in turns all the way round.

The flag was created by **Manuel Belgrano in 1812**, and the sun was added six years later in 1818.

Aconcagua, in Argentina, is the highest mountain anywhere outside Asia at nearly 7,000 metres.
